EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 1, in "RELATED PATENT DATA" section, line 2, after "August 31, 2000", insert: -- now US Pat. No. 7,112,503 --.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: It is agreed that none of the art of record teaches or suggests the claimed capacitor construction including a HSG layer over the sides of the opening but not over the bottom; and a conformal first capacitor electrode containing TiN on the HSG polysilicon, the first electrode being sufficiently thin that the first electrode has a rugged outer surface with an outer surface area per unit area greater than an outer surface area per unit area of the surface underlying the first electrode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
